

**WE RISE BY LIFTING OTHERS**

## CEO'S Message

Yet another year has gone by us, but this time, with a notable difference! We were made to reevaluate ourselves and our work against the new challenges that confronted all of us and to modify our responsiveness, agility and resilience to build it into our system. We have done well, thanks to the thousands of teachers and team members that have tirelessly given their time and expertise over the years to build this model, where pedagogy and technology come together in a seamless way! We need continued support, so we may scale our efforts to reach millions more!

With this edition of our newsletter, I want to say I am grateful for each individual for supporting our cause!

My Team has put together another fantastic Newsletter with bubbling exciting news, highlighting new collaborations and another 1,000 schools. Please read on!

# KEY PARTNERSHIPS

## Thinglink

"Visual online learning materials play an increasingly important role in all fields of education, and CLT India has invested in creating a valuable collection of over 20,000 thousands curriculum-aligned educational videos for schools in India. We are happy to share that through this partnership, a collection of these videos will soon be available for schools in interactive format, allowing students to discover additional information, materials and questions as they are watching the videos. The shared goal of this partnership is to introduce new affordable and accessible methods and materials for online learning that will help teachers and schools engage students with best learning results."

Ulla Maaria Koivula  
Founder & CEO, ThingLink

..thinglink..

We are thrilled to be one of the Million Lives Club vanguard members! This is an acknowledgement of our impact at scale by our peers and mentors, which help us to tread on our path ahead with more confidence to reach 5 million beneficiaries in the next 3 years.

## QS Reimagine Education Awards

CLT was shortlisted for the reimagine awards in the K12 category for the programme 'Access to education for all through multipronged delivery channel'

CLT distributed e-learning resources to 500 underserved children in the Uttarkhand region, in collaboration with IIT Roorkee, through the 'DigiSewa-Empowering Future through E-learning' program, an initiative to deliver free digital education and provide structured mentoring to students.

## IIT Roorkee

The poster for a live webinar by NSS IIT Roorkee. It features the IIT Roorkee logo at the top left and the CLT India logo at the top right. The text reads: "NSS IIT Roorkee presents a Live Webinar on the theme 'Digital Education (E-Learning)'". Below this is a circular portrait of Ms. Bhagya Rangachar, Founder and CEO of CLT India. To the right of the portrait is a purple box with the text "Redefining Access of Learning Opportunities to the Underserved". At the bottom left, there are stylized geometric shapes (a triangle and a square) in yellow and purple. At the bottom right, there is a box with the date "Date: 2nd October, 2020", time "Time: 2 pm - 4 pm", meeting link "Meeting Link: <https://argo.page.link/Wgpc2>", and password "Password: J4YD82y73". A QR code is located at the bottom right corner with the text "Scan me" next to it.

## BITS Pilani

CLT India is joining hands with BITS Pilani for a volunteering program, to make a difference in the education space.

e-Patashale Content can now be accessed now on the Diksha Platform  
The content is available on Kannada from 5th to 10th.

# What's New at CLT

CLT India along with the Menda Foundation and the Rotary Club of Bangalore Junction is implementing e-Patashale Program in 1000 schools by the year 2021 with CLT India being the knowledge and implementation partner.

The roll-out for the first 25 Schools have already begun in the Bangalore Rural region.

Here's to scaling and making a difference in the underserved community!

Excellent app, user interface is so good, i love this app, i suggest to all teachers to install this app, We can access only one language at a time, my suggestion is develop the app, that can access different language, different medium at a time..plz And also allow the app with different mail id in a single device... Thank you jigi team

This App has excellent and meaningful content. It's easy to use and understand the lessons from different languages. Also it will help to teachers to make their lesson plan in more detail.

Shruthi Mahesh

★★★★★ 4 August 2020

It has been very helpful for creating daily lesson plans for my nephew in lockdown. I have been helping him with studying and this app helps to teach better

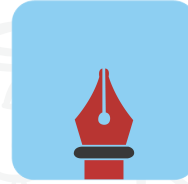

Amey Kapadiya

★★★★★ 27 October 2020

Great content and very unique experience. Also the interactive interface maintain interest in the learning.
