

October, 2021 Volume 8

CEO Note

so proud to be part of an NGO with a vision to provide quality digital education to Government schools. Started

Dear All,

in 1997, with the visionary leadership provided by Ms Bhagya Rangachar, the founder Trustee, its digital programmes have been implemented in more than 4,200 schools, 12,600 classrooms and benefited more than 2.6 million students. No amount of words will be enough to thank our partners FICCI, Menda Foundation, Embassy, Rotary, SELCO, BOSCH, Lenovo, Michelle Bearings, Right to Live, Sarvagna Health Care Institute & everyone who have stood by us all through, to support this

I am very excited about taking over as CEO of CLT India (Children's Lovecastles Trust) w.e.f. Sep 01, 2021. Feeling

children from the marginalised families only proves that huge change can happen if we collaborate and partner for a noble cause. The unique features of CLT digital education projects, viz low cost, high quality and not dependent on internet means they are ideal for bridging the digital gap. My congratulations to the innovative and creative team at CLT that has made this possible. We now look forth for reaching out to 10000 Government schools all across India. We are determined to make it realisable with all your support. Together let us make it possible because every child deserves quality education and no one should be left

-Nixon Joseph, CEO **CLT India wins BRICS Awards** Thank you for your unwavering support!
